

A Zoological Investigation Into the Causes, Transmission, and Source of Rocky Mountain "Spotted Fever." By CH. WARDELL STILES. Hyg. Lab. Bulletin No. 20, U. S. P. H. and M. H. Service.

This bulletin presents a study of the whole subject of "spotted fever," with an excellent and most carefully prepared resumé of all the literature bearing upon it. After most thorough and painstaking investigations, the etiology of this peculiar disease seems to remain as much in doubt as ever, and the previously advanced hypotheses must, apparently, be abandoned.

Debierre-Malformations of the Genital Organs of Woman. Translated by J. HENRY C. SIMES. Published by P. Blakiston's Son & Company, Philadelphia.

This work contains a brief resumé of the anatomy, embryology and malformations of the female genitalia. To anyone who desires this material in compact shape the volume is commended. There is nothing new in the book; nor does the contained subject-matter receive any better treatment than is accorded to it in any good gynecologic text-book.

American Alkalometry. Vol. IV. Chicago: The Clinic Publishing Company.

This volume, mainly composed of various articles which have appeared in the *Alkaloidal Clinic* during the years 1902 and 1903, is devoted to an advocacy of the use of alkaloids in the treatment of disease. The arrangement of the material is alphabetical, which greatly facilitates reference.
